Paying staff through COVID-19

There's financial support available for businesses with workers affected by COVID-19 as alert levels change.

Paying affected workers at all COVID-19 alert levels

If workers are directly affected by COVID-19 there's support available for businesses to help keep paying them at any alert level. It's important workers tell their employer about their situation as the employer needs to make the application.

The **Short-Term Absence Payment** is available to employers to help pay workers (including people on casual contracts) who can't work from home while they wait for a COVID-19 test result (in line with public health guidance).

→ www.workandincome.govt.nz/short-term-absence-payment

The **COVID-19 Leave Support Scheme** is to help employers pay workers (including people on casual contracts) who can't work from home and meet certain health criteria.

For example, they have COVID-19 or are defined by Ministry of Health as a 'close contact' who has been told to self-isolate for 14 days.

When business revenue drops

COVID-19 Wage Subsidies have been made available during COVID-19 Alert Level escalations. This is so businesses can keep paying workers (including those on casual contracts) and protect jobs. The Government has said a COVID-19 Wage Subsidy will be in place if there's an escalation to Alert Levels 3 and 4 anywhere in New Zealand for 7 days or more.

Information about COVID-19 wage subsidies will be published on this webpage:
